

**INFERNAL CONJURACION** is a band originated from Tijuana, B.C. Mexico, formed in June 2006, it's style is Death Metal executed in the old school ways, influenced by National and International Death Metal acts.

Upon releasing their first demo "Tremendous Plague" (2007) they caught the eye of the underground Metal scene receiving offers to release their material in different labels, most of them in Europe. Finally a Polish label "Gruff Prod" edited their first demo in Pro-Eps format, keeping loyal to the underground movement.

At the same time Infernal Conjuración received an offer by Swedish "Blood Harvest Records" for an exclusive release in 7" format, the release was entitled "Año de Fe" (2008).

By 2011 the band records their follow up release entitled "Death Has Appeared..." **REVIEWS**

"Tracks also do not give themselves a chance to boredom, fast and epic passages are needed moments of muted shouting, but whether slowly or quickly, death is omnipresent".

"This EP is just awesome! It's for old school Death Metal, as it formerly was".

"Death Has Appeared". The title says it all, because the five compact pieces of the disc, small, taut and sound through and through like the late 80s. Particularly the somewhat reverberant recorded vocals of Emmanuel Lura seems to come directly from the catacombs of the deepest hell.

"INFERNAL CONJURACION is brutal and violent, with titles that fit. But they also know how to develop a melodramatic phase, as in "Worship of Evil", slowing the tempo after a start to the climax. As they say in the community: Evil on Death".

"Infernal Conjuración's range is so extended, that they seem to be inspired by both the European, North and South American scenes. We still they easily come with their own interpretation of the Old School, and it's not only in that self-developed sound, yet also for their fabulous compositions, this band is more than just worth listening to. As a matter of fact, Death Has Appeared... is one of the best English inspired albums this year... in years".

"There are quite a large variation in the songs. Old school and delicious raw Blast when they turn the pace".

"After being involved and following the death, death and black metal movements for over 23 years I suspect every time I hear a band claiming they belong to the underground, that they are clueless musicians who are here only to enter a scene with which they try to cope, using the veil of the "underground" their lack of skills and talent. Thank goodness INFERNAL CONJURACION have nothing to do with such a thing. Their sound is indeed underground and in fact I listened to it four times in a row before sitting to write this presentation. Their sound is indeed underground, a bit "militant" will not any pushing or exaggeration, while the riffs are basically fast, concise and infernal. The vocals remind me of the ability of (RUSSINER) and deeply touched me".

"Inglés y polaco con la sencillez de la vida, se ciñen con la influencia de un momento del folklore del DEATH METAL en forma de canciones como el cristianismo (MORIBUNDUS, POSSESSED) y la voz del DJFF BRUBRA, SILUR, NICOL BATHIGO, MA DUBAIAR, de los cuales es un momento relevante del clásico que ha trascendido. En el nivel más "de 1991" "Always Alive". Death has a way de lo inabarcable, un día es la banda se comienza con fines puras, sin un mínimo de oscuridad, un complemento de la vida, un día y precisa ser en finica, es la base de su forma de cantar el tema que queda el disco, remite a una época de pureza de estilo, sin tener al "emo" "Death Has Appeared" es uno de los mejores discos editados en lo que va del año, con una presentación íntegra, insert con letras y una portada y música que median sobre la manera de pinturas clásicas".
